Voting Machines Arrive At Court House Precinct

According to the Electoral Board of Appomattox County, three automatic voting machines have arrived and have been set up in the Court House Precinct so that voters may stop by and practice using the voting machines.

Below is a schedule that the voting machines will be available so that persons may go by and practice voting and learn how a voting machine operates.

Tues., Oct. 17 - 7 to 9 p.m.
Thurs., Oct. 19 - 7 to 9 p.m.
Sat., Oct. 21 - 9 to 5 p.m.
Tues., Oct. 24 - 7 to 9 p.m.
Thurs., Oct. 26 - 7 to 9 p.m.
Sat., Oct. 28 - 9 to 5 p.m.

The Court House Precinct is the only precinct in the county that will use voting machines this fall. All persons who vote in this precinct are urged to come by and practice voting on this automatic machine so that they will be familiar with it on election day. Automatic voting machines are easy to use, with only three simple steps to voting.

The machine will be located in the Court House at the same place you have been voting on Election Day.

Although only the Court House Precinct will be using voting machines during the fall election, all county citizens are urged to come by and practice voting on the machine so you will be familiar with them when your prec inct has voting machines in the future.

Someone will be at the Court House at the above hours to explain the machine and to show you how to vote on it.

The automatic voting machine provides ease and speed in voting, assurance of secrecy to voter, unspoiled ballots, mechanically accurate counting, ready results when polls close,

County Rescue Squad Answers 39 Emergency Calls in Sept.

For the Appomattox County Rescue Squad, the Annual Fund Drive is well underway. October 2, 3 and 4 were spent with squad members and volunteers canvassing the Town of Appomattox. On Monday, October 9, Pamplin City was canvassed; on Wednesday, October 11th, rescue squad volunteers were in the Red House community and tonight, Thursday, October 12th, they will be going into Spout Spring area. Evergreen, Oakville, Hollywood, Hixburg and Vera will be canvassed the following week.

With all the time spent on the Fund Drive, the Appomattox County Rescue Squad has been quite busy, also, answering emergency calls. On Friday of last week, the squad received a total of five calls within a two-hour period. All three vehicles were out at one time and for a while it seemed that squad members would have to use private trucks or cars to answer calls, but all victims were cared for and the business of "rescueing" went on as usual.

During the month of September, the ACHS traveled a total of 1,584 miles in answer to 39 emergency calls. Man hours used in answer to these calls totaled 150 1/4 hours. A breakdown of the calls is as follows: Sudden unknown illnesses, 6; Auto wrecks, 4; Back injuries, 2; Transports, 4; Maternity calls, 2; Broken bones, 3; Eye injury, 1; Hit by car, 1; Cuts, 2; Dead on Arrival, 2; Strokes, 1; Chest Pains, 3; Falls, 1; Overdose, 1; Football stand-by, 1; Bike accident, 2; and breathing difficulty, 3.

We feel confident that the Appomatox County Rescue Squad

Average Income Better Than Average

For Appomattox County's farm population, the past year proved to be a better one, by and large, than it was for farmers and ranchers in many sections of the country.

Although some operators did little more than break even, others, especially those with well-equipped, commercial-size setups, did quite well.

Despite the fact that prices obtained for farm products and livestock were at a low level during the first half of the year, they picked up somewhat in the second half.

As a result, many farmers were able to report bigger-than-average gross incomes

The better showing was due, in part, to favorable weather conditions, bigger plantings and heavier fertilization. Also a factor was improved operating efficiency, made possible by the use of more mechanical equipment.

The figures on the year's operations, for the local area and for other sections of the country, are contained in a survey report released by the Standard Rate and Data Service.

In Appomattox County, it finds, farm receipts amounted to $4,554,000.

The income figure represent gross receipts, before taxes and operating costs are taken into account.

Included are the cash proceeds from farm marketings, government payments and "income in kind," which is the value of products grown and consumed on the farm.
